Ref: HR001123S0053-Office-Wide-BAA-PA-005, *Theory of information money and entropy: a peer-to-peer supranational currency for an information economy*

Dear Mr. Khatri:

DARPA has completed its review of the subject abstract submitted under the Defense Sciences Office (DSO) Office-wide Broad Agency Announcement (BAA), HR001123S0053. We do not recommend expanding your abstract into a full proposal for the following reason(s):

- The scientific basis or theory or technical rationale is not clear, and/or preliminary evidence on the potential success of the approach is not convincing or well presented.
- The realistic ability to achieve the desired goals/results is not clear.

Since preparing a full proposal requires significant effort, we recommend that proposers only do so if specifically encouraged by DARPA. Nevertheless, should you choose to submit a proposal, you must ensure it conforms to the requirements for content, formatting and transmission to DARPA as outlined in the BAA. DARPA will review proposals in accordance with Section V of the BAA and without regard to any comments resulting from the review of an abstract. If you have any questions, please contact the BAA Administrator at HR001123S0053@darpa.mil.

Thank you for your interest in DARPA.

Sincerely,

Benjamin Grosz, Ph.D.
Program Manager
Defense Sciences Office
