

GenDelve

Where Human(s) & AI delve together
AI Services Aggregator, Marketplace &
Collaboration & Research Platform

Rahul Khatri, Founder & CEO | rahul@gendelve.com

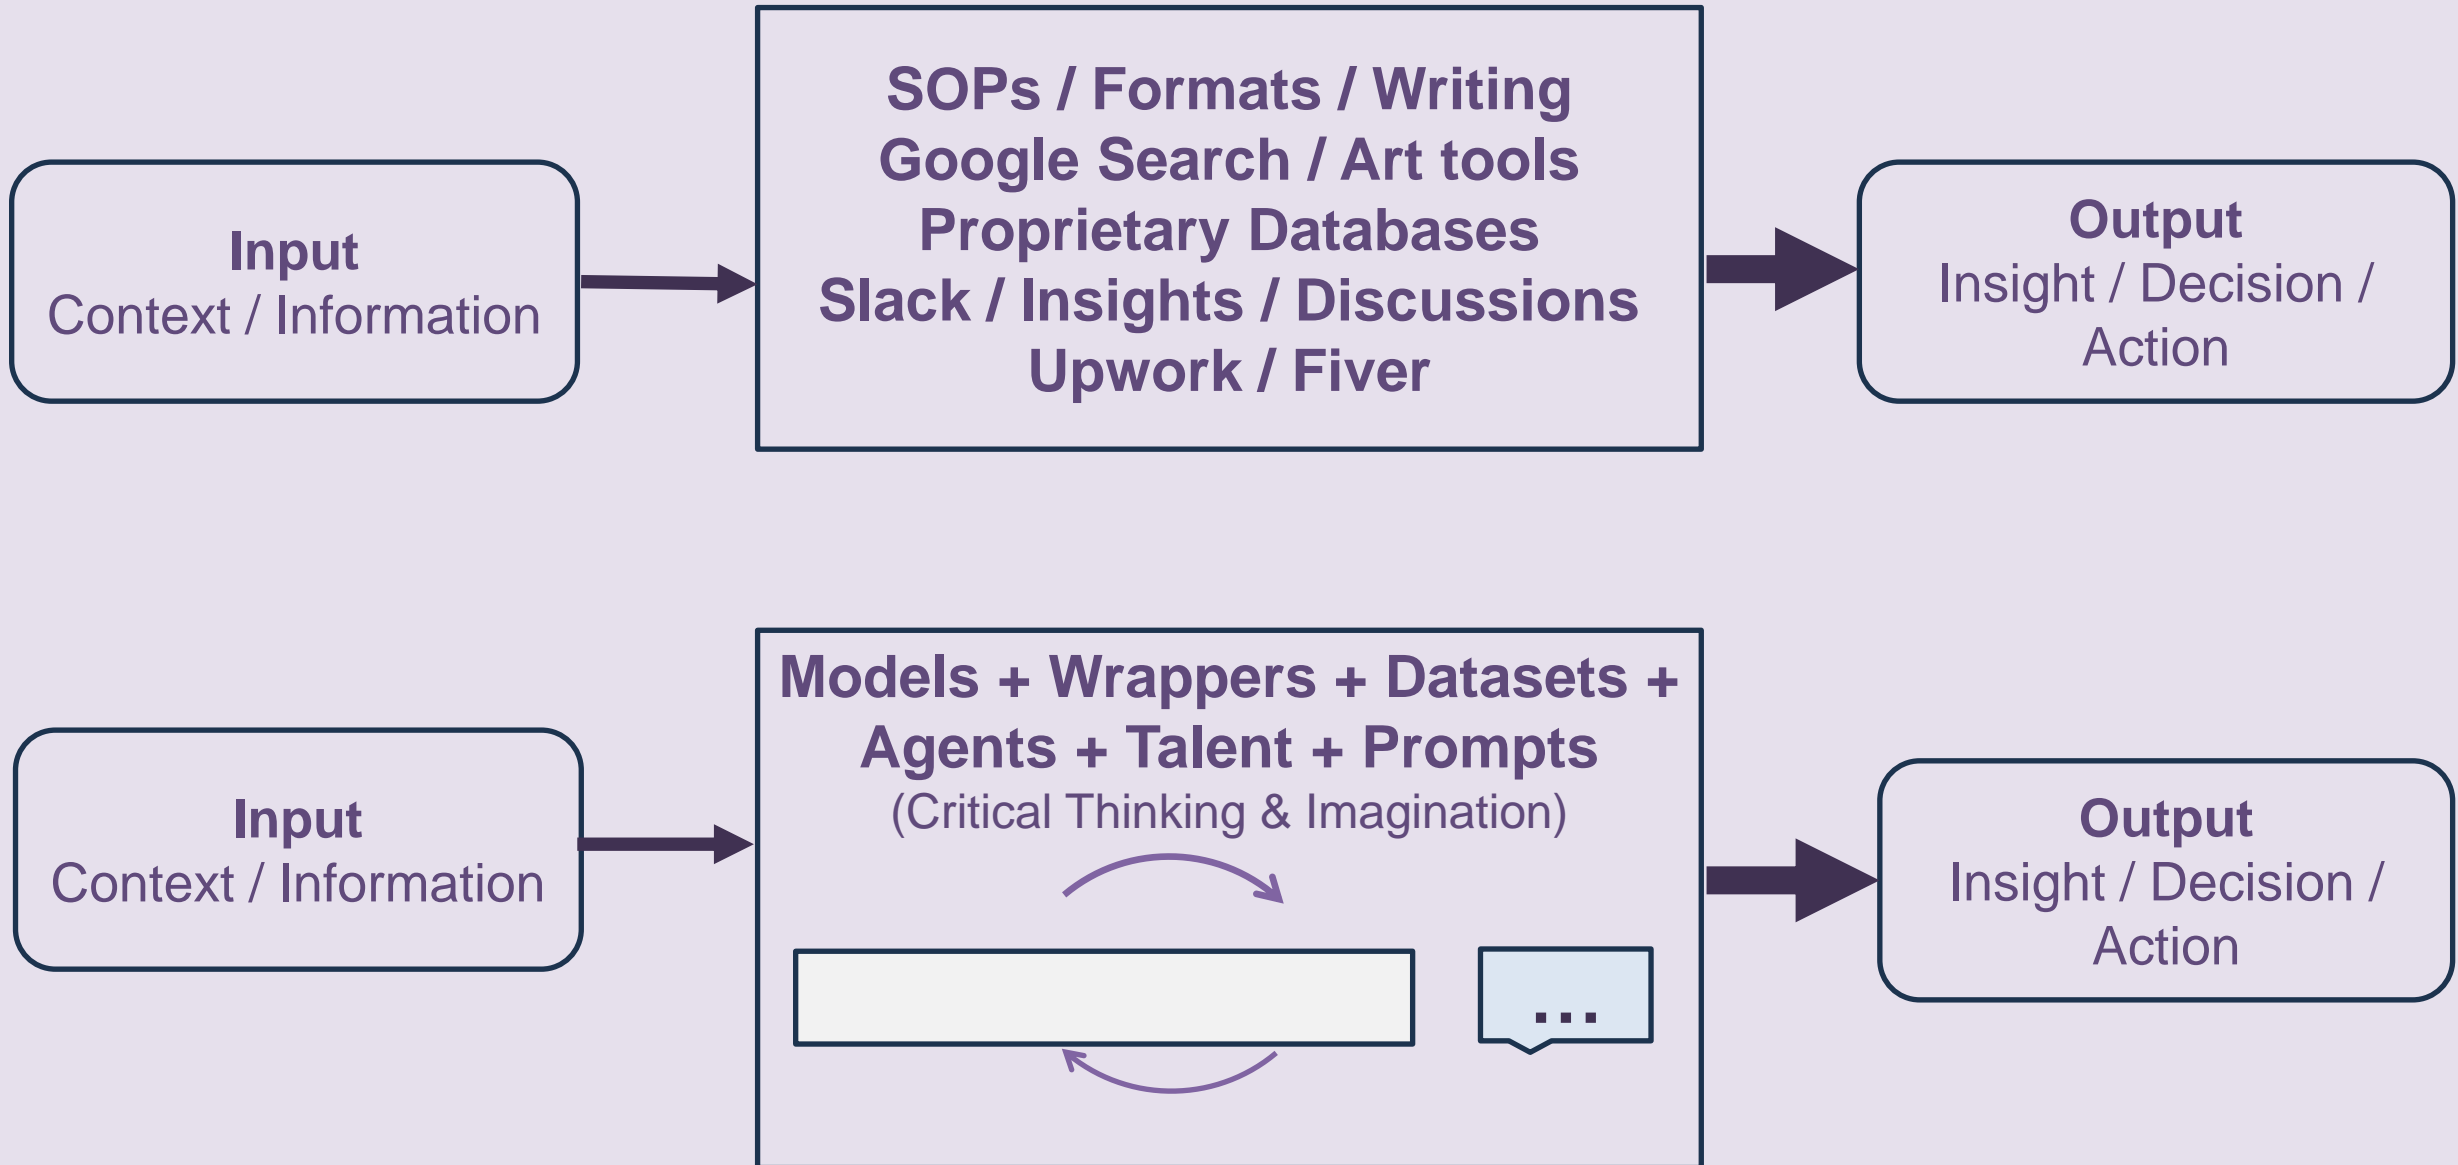

The AI Stack is fragmented

- **No communication and collaboration platform with unified access to AI tools and human insights in a shared chat user experience**
- **Complicated APIs. Scattered talent & knowledge base. Siloed AI models, wrappers, agents and Human(s)**

From Siloes to Synergy: Gendelve for seamless Human-AI workflow

- **One interface to collaborate with hundreds of models, wrappers, agents, tools, teams, freelancers and datasets.**
- **Shared prompt history, context window and transparent compute cost**
- **No APIs. Just Group Chats.**

Traditional Workflow vs. AI ChatUX Workflow

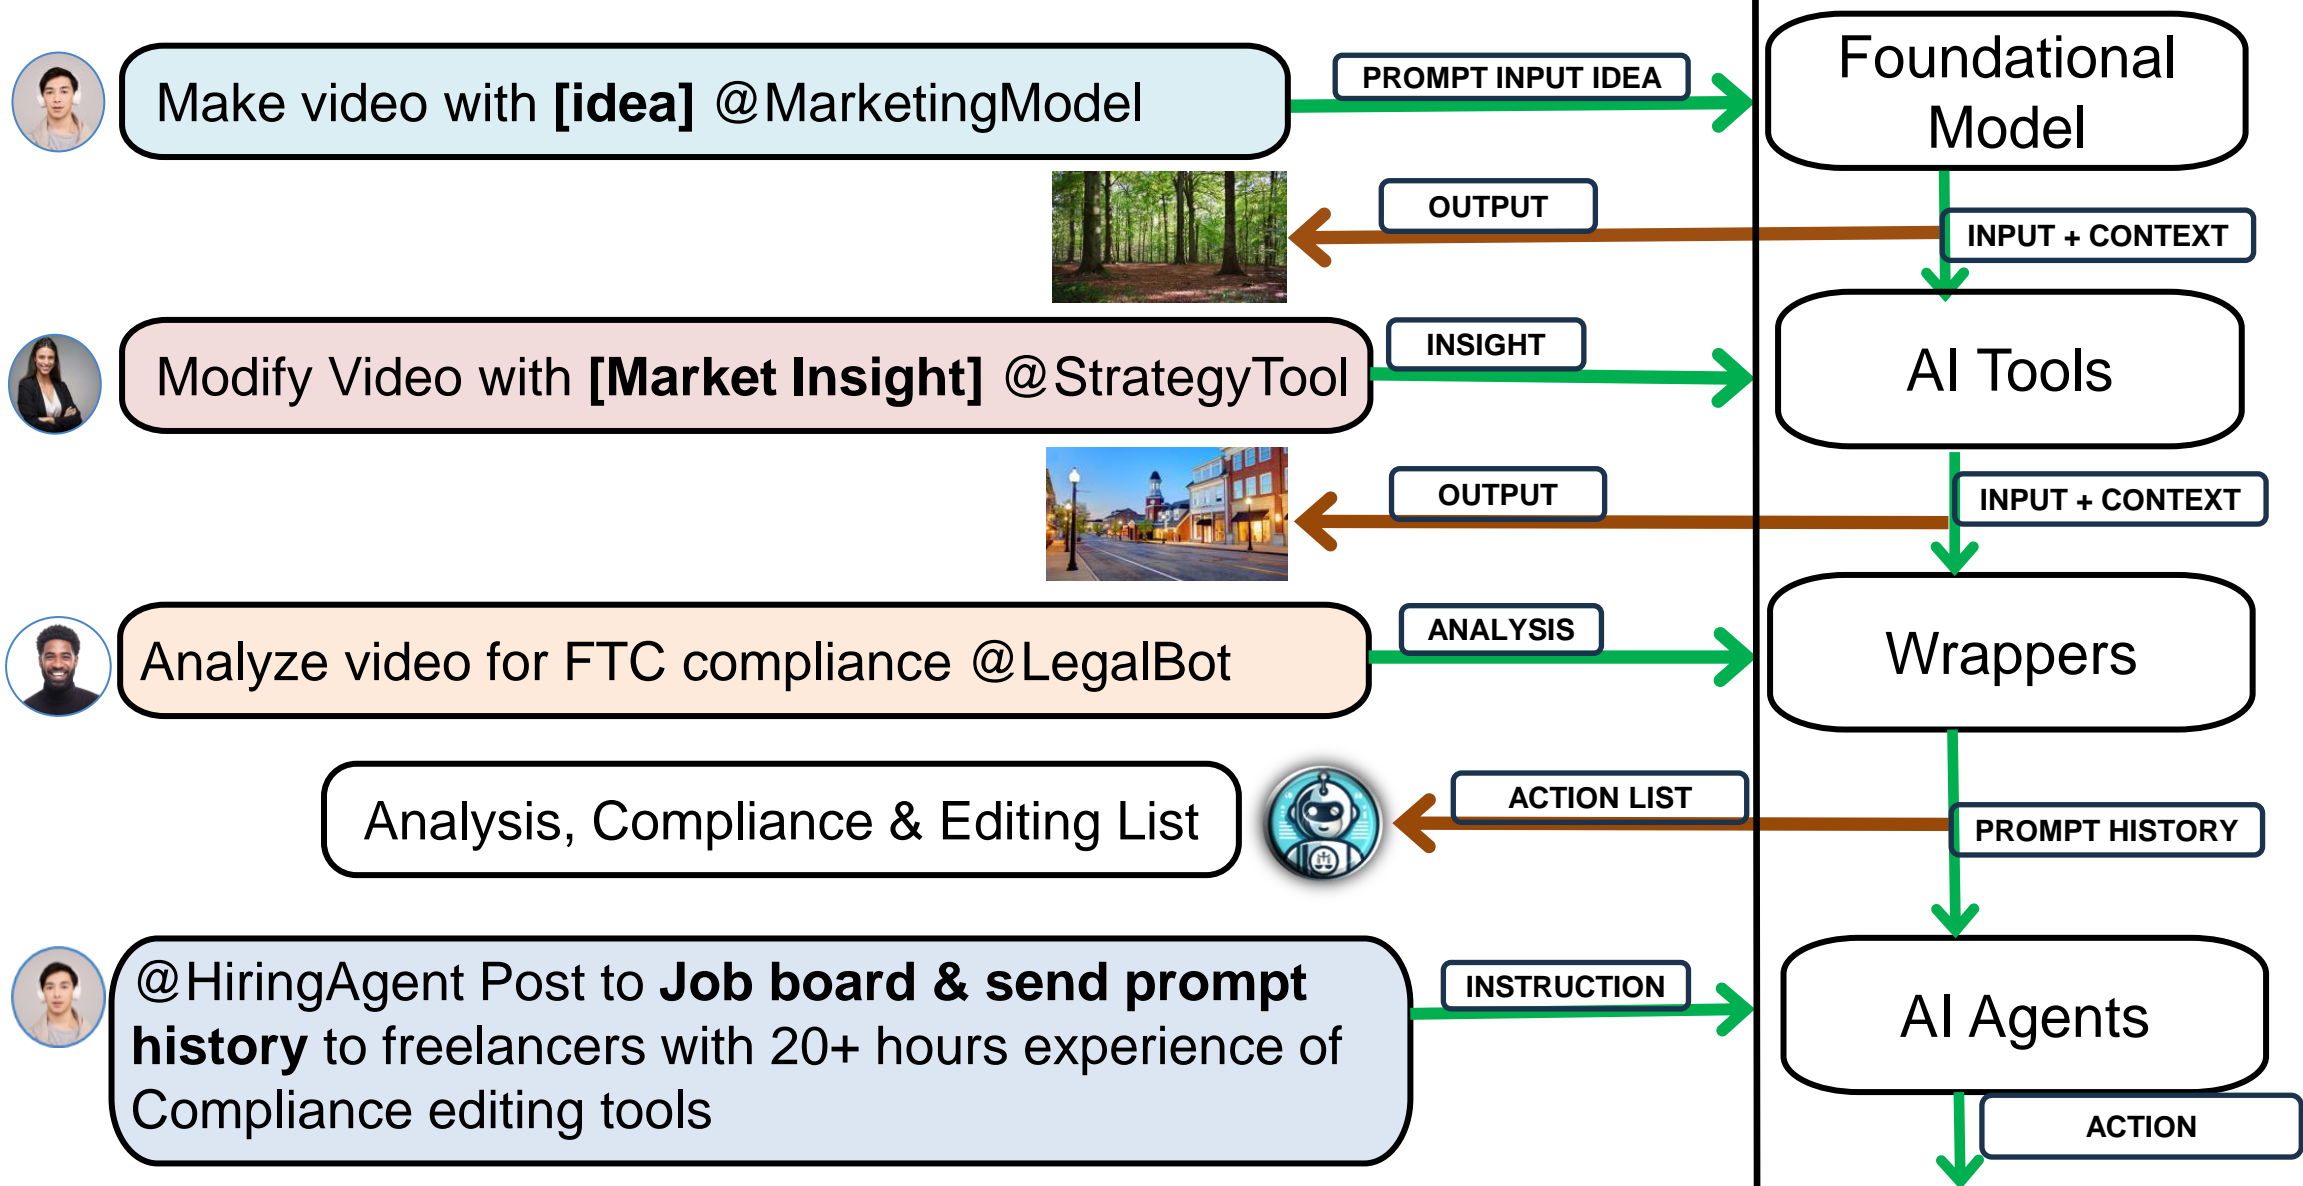

Who Am I?

Rahul Khatri (Founder)

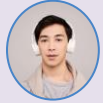

- **Built GenDelve Workflow Simulator (100 Sign-ins), Gendelve RPG Generator, AI Agents Simulator & over 40 Websims built over GenDelve Interface**
- **GenDelve ability/interface integrated into Websim.ai. Used by other websim devs**
- **Automated 60% of legal workflow with prompt instructions, GenAI and custom datasets**
- **Building framework for commoditization of computational resources & connecting state & private oracle economy for real time**
- **Building AI Research Agents that improve AI Research Agents**
- **Building Gendelve.com and building networks with devs/freelancers/prompt artists/AI researchers that will want access to the GenDelve marketplace and aggregation**

Use Case: Social Media Marketing Group Chat UX Workflow

Group Chat UXs for plugging into every workflow

First Homebuyers Recommendations Email

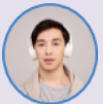

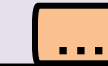

Search real estate listings for my new clients with specifications
@RealtorSearchBot

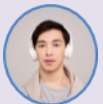

Analyze listings per my playbook, datasets & give 5
recommendations per client **@PropertyInsightsBot**

@EmailDrafter Use Listing Recommendation Template & make list
for clients with personal insights combined with **@MarketTrendsData**

@DesignerTool Use Listing recommendation Template, add
personal insights & create PDF for each client

Send list to my new clients after **@Alice** approves
@EmailNewClientAgent
