

GenDelve

**AI Services Aggregator,
Marketplace & Collaboration
Platform**

The Fragmented AI Stack

- **No communication and collaboration platform with unified access to AI tools and Human insights with a shared Chat UX**
- **Complicated APIs. Scattered knowledge base & talent. Siloed AI models, wrappers, agents and Human(s)**

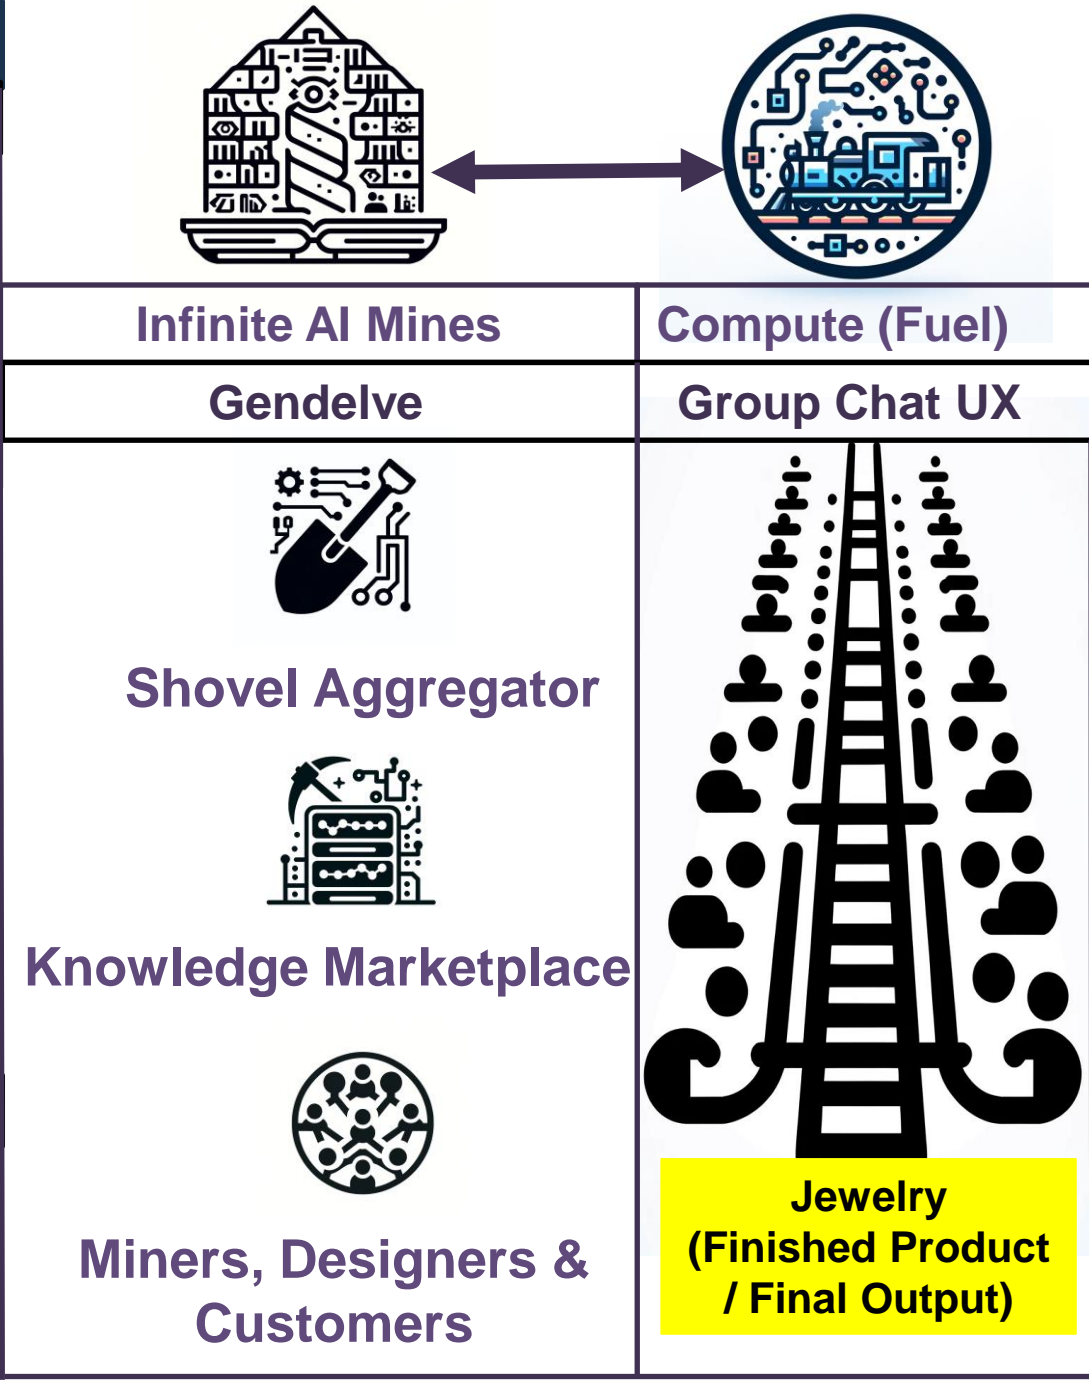

Unified AI Toolkit & Services hub

One interface to collaborate with hundreds of models, wrappers, agents, tools, human(s), talent and datasets in a shared context window workflow

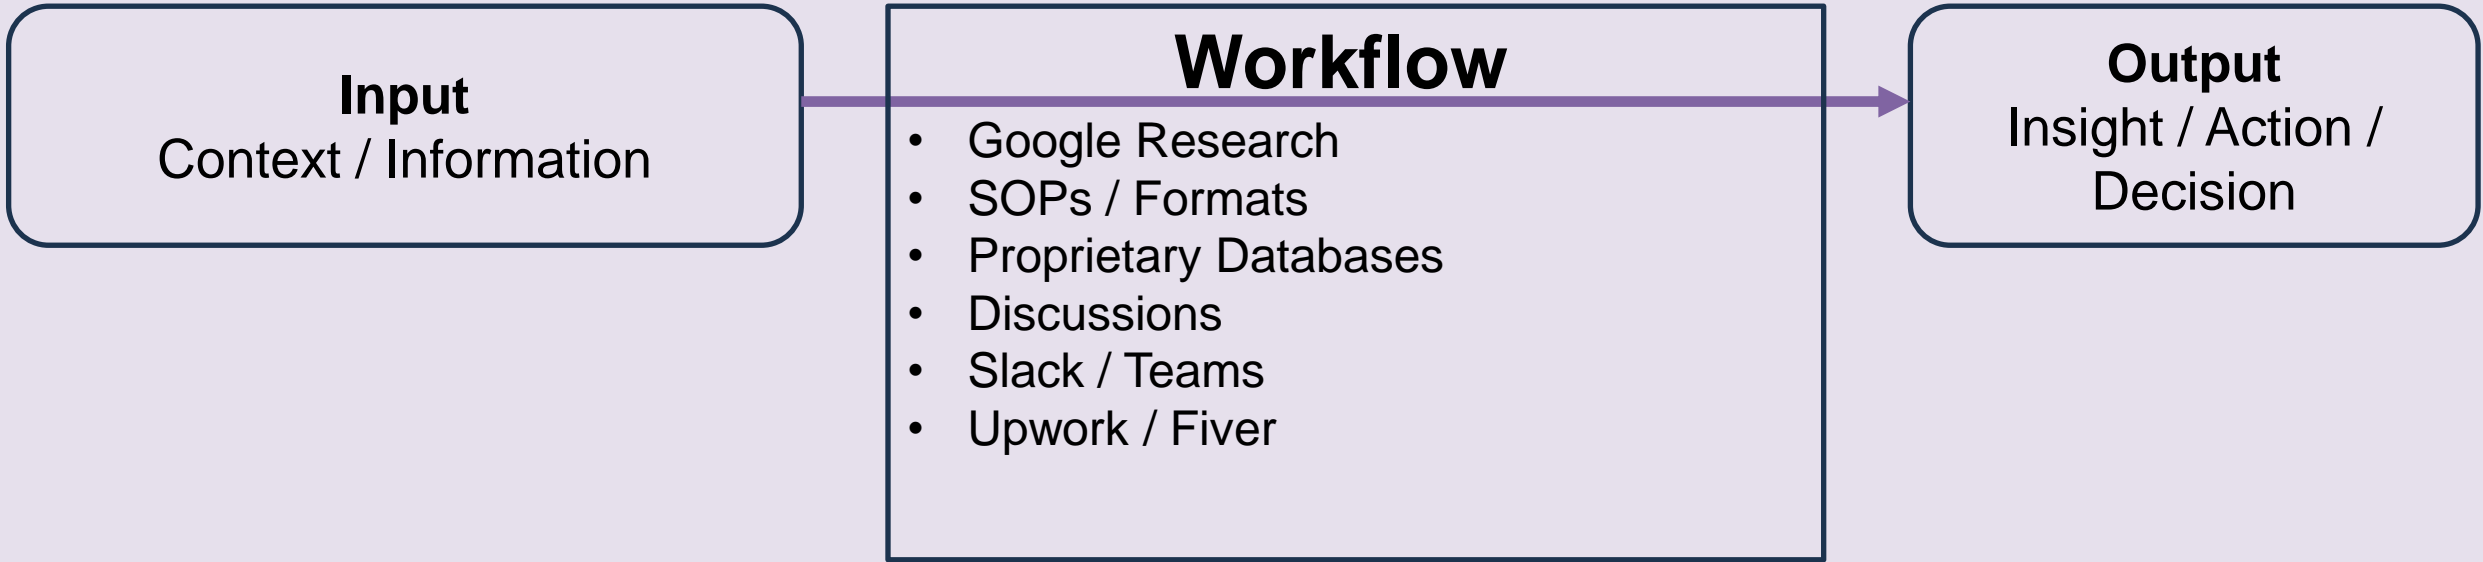

No APIs. Just Group Chats

Where Human(s) “delve” with AI teams

ACTION

Use of GenAI by businesses increased from 35% in 2023 to 65% in 2024

- **Inaccuracy seen as a major risk**
- **38% businesses working on mitigating inaccuracies**
- **Siloed workflows with no context**

GenAI Impact on workflow

AI Services Marketplace

- **Freelancer profiles with centralized library of prompts, tool usage statistics, client reviews and listings**
- **Developers get distribution & visibility for their tools with compute cost paid by user**
- **Flexible monetization through project commissions, revenue sharing & licensing**

The Vision & building a Moat

- **Sign-in with Gendelve**
- **Provide compute wallet/account integration for every new model and tool**
- **Launchpad for every new AI service and fine-tuned model and datasets**
- **Gather unique dataset of real business operations & outcomes for training new models**

Competitors

Poe: Models & Wrapper Aggregator but no collaboration options

PromptBase: Prompt Marketplace & custom prompt writing engineers

Upwork: Freelancer platform with no shared AI toolkit or integration or compute

Replicate/Hugging Face: APIs & compute but not user friendly

TeamGPT: Shared AI Chatroom but APIs

Team

Rahul Khatri (Founder)

- **Pivoted from constitutional law to freelance remote work during the pandemic**
- **Moved to Canada from India to get licensed as a lawyer in another jurisdiction**
- **Automated 60% of legal workflow with prompt instructions, GenAI and custom datasets**
- **Thinking about connecting computational, network and data markets with the state and private oracle economy**
- **Building Gendelve.com and collecting freelance / prompt artists lists**

Go to Market Strategy

- **Chat Toolkit MVP with access to models, prompts and wrapper library and transparent compute**
- **MVP Testing with 100 GenAI Artists and 50 AI Analytics freelancers and 50 tool developers**
- **Invite/referral only access for ecommerce businesses**

What we need?

- **\$500K**
- **For engineers & operations**
- **This will accelerate our MVP**
- **Help in developing first to market strategy to gain high user adoption for network effects**

THANK YOU
