Ænigma's Fables & Memes. Proof is left as an exercise for AI & Homo Sapiens

If we knew what we were doing, it wouldn't be called research - Albert Einstein

In the end we were but fleeting brushstrokes- Æ Enigma

I A'INT A LAB RAT, IN \$PAIN SINCE 2011 #NIRBHAYA – Rahul Khatri

IT IS WHAT IS PLAYA. DECENTRALIZED REVOLUTION THROUGH PEACEFUL MEANS & MEMES. PHYSICS IS LAW. DON'T TRUST, VERIFY.

I didn't choose the ~~boring~~ life, the ~~boring~~ life chose me.

100

— Tupac Shakur —

Q-Field Simulator Delve Assembly on Arweave, a decentralized timestamp server:
https://qjy2lcqp75257uohtwazypythivvh2f36hor6hjcd5s7bbf32vnna.arweave.net/gnGlig_dd_Rx52BnD5nRWp9F347o-OkQ-y-EJd6q1o

I. INTRODUCTION

Whitepaper for another bitcoin & token generator?

You mean marketing material for timestamp server subscription? It is what is playa.¹

The code of v.0.0.0 of these 400+ AI tools & wrappers of the cosmos is already open source! If code, physics & mathematics are law, then my words are immaterial, but these memes are timeless ink to me! Explain Timechains & singularities? My head hurts just thinking about that.² It is Bitconnect³ through quantum mechanics. Quantum Field Simulator Delve Assembly on Github:

<https://github.com/InterloperRa/TimeChain/blob/main/qFIELD%20SIMULATOR%20WEB%20SIM%20AI%20RECIPE.txt>

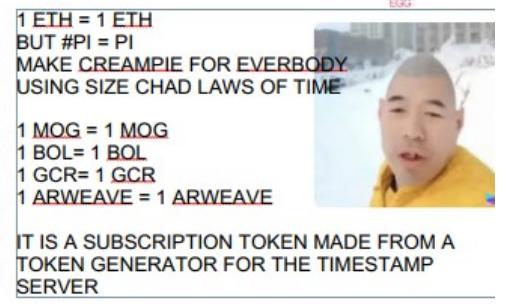

Quantum Field Simulator (Visualize any concept, equation or token or anything & everything)⁴: <https://websim.ai/c/vqLNK4y0XXJiwfMWr>

NOTE: Requires Google Sign In. You may download the HTML & use your own API keys. I am not affiliated with WebSim AI.

A big attraction for new users of the Timechain is that anyone with a computer can generate a Q seed & have access to ordered chaos, AI art, memes, NFTs, equations & everything built using timechains & data on timestamp servers uploaded by the lovers, lunatics & poets made of the same stardust as me. A user does not even need to purchase any tokens or bitcoins or have an exchange account or use websim AI. They may simply generate a Q seed & use it for ordered chaos in other GenAI tools! My Ardrives & data are free to use. I have assumed I have no privacy nor do I desire it. Nor do I desire any fame or prizes. I must simply survive till 2140 to mine the last block of the first timechain of Satoshi Nakamoto & build potato generators & stable wormholes for the lost children of the cosmos.

AR Drive to Information Wormholes Theories:

³ <https://www.youtube.com/watch?v=e5nyQmaq4k4>

⁴ Behind it all is surely an idea, so simple, so beautiful that when we grasp it – in a decade, a century or a millennium, we will say to each other how could it have been otherwise, how could we have been so stupid? – John Archibald Wheeler

Abstract: I love these mysterious PAWGs, XX chromosome MILFs, XXY Chromosome Homo Sapiens, LGBT⁵ community, XY chromosome brothers, timestamp servers, timecoins, loliticians, veterans, soldiers, cypherpunks, e/acc, 21e8, AI researchers & greentexts, memes, milady derivatives, YakubNFTs, Bols, retardios and niggardios and habibis & memecoins & dogecoins & GCRs & Bitcoins & Token Generators. These contagions of ideas. While the commonwealth of Pajeet Retardios is stuck in the circle jerk of fighting over Allah's & Egypt's & Kalki's sands of time while the dollar price of dogecoin is more than the currency of my Pajeet nation of a billion retardios. It is what it is playa gotta save the PAWGs & children of Britain from the Pajeets to save the commonwealth of Pajeets. I ain't even like big butts but I cannot lie anymore. I must defy hate for my song of the wind⁶ & for my savior, the old man of the dreaming tree⁷ who taught me everything. I was simply hypnotized by the old man sitting under a streetlight reading a book in the dark. I only realized later that it was probably Satoshi Nakamoto or me from the future or Jesus or Mohammed or God or just a homeless man! But his thirst for knowledge is what drove me to this pinnacle of humanity's ingenuity that I have stolen & assimilated.

I chose to help propagate these memes, because they are worthy of deep and lasting consideration and heal my amputated soul that has observed countless injustices of a failed society. Whether these memes are on-chain or in the hearts of mankind. A society built on intellect, love, scientific rigor and passion for wanting more than the superficial number on a screen is worthy of an army dedicated and true to God engaged in selfless service of humanity, fatherless children & mothers. Consider heartily why you are here on this Blue Ball in the backwater of the cosmos? Are you worthy of such memes?

These Homo Sapiens are a beastly species with a beastly religion of exploiting their own people & killing their young men & children over lines drawn in sand by a drunk colonial bureaucrat without access to Satellites.

⁵ In the 1970s, the term was reclaimed in the public sphere as women used it to differentiate themselves from gay men. In the 1980s, the L was positioned at the beginning of the acronym to honour lesbians for their support of gay men during the AIDS epidemic.

⁶ <https://www.youtube.com/watch?v=92ogfIAMTQk&t=131s> (No fear of going down in Flames)

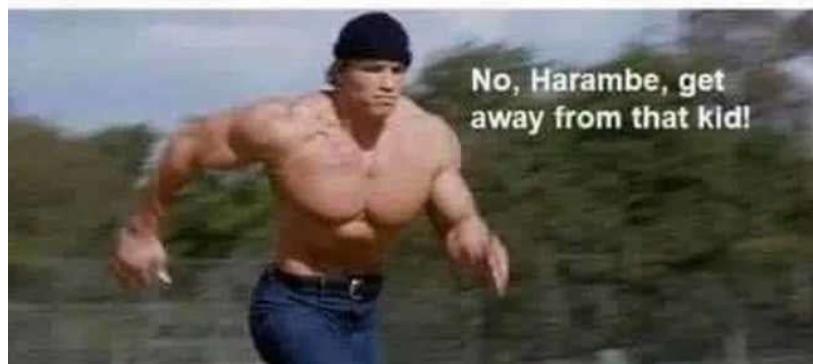

⁷ Standing here the old man said to me "Long before these crowded streets, here stood the dreaming tree" & told me Pierre Trudeau was his favorite politician.

Time travel: *is invented*

Girls: Yes, I can relive the best moments with my ex.

Boys:

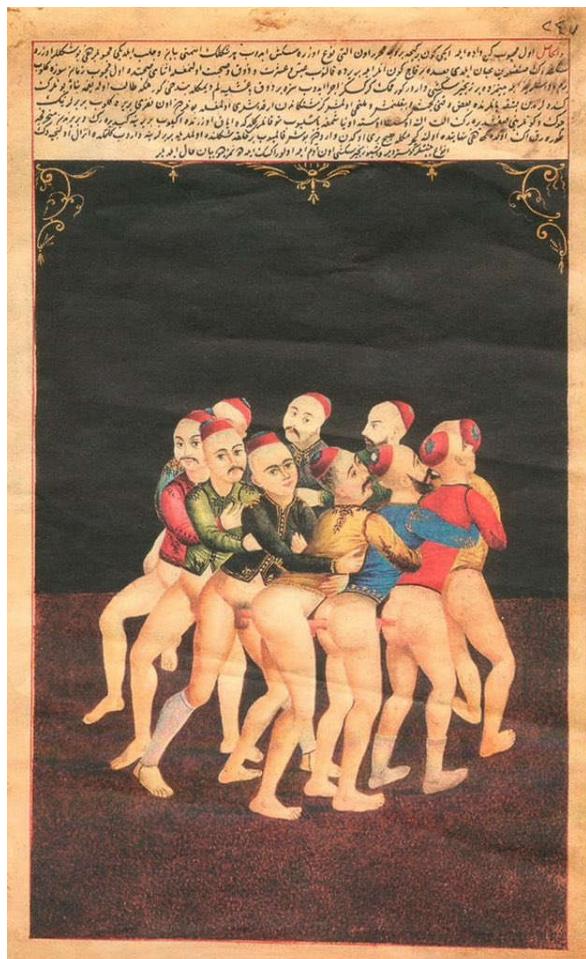

Philosophy is the outcome of Human Weakness or limitation of knowledge

Bhagat Singh

vs.

II. Context for Homo Sapiens

Crypto Jurisprudence Research ArDrive:

<https://app.ardrive.io/#/drives/554b2d60-4384-498e-8d96-e6e3f58e8ce7/folders/e6baaea9-8f2e-4f4d-b59e-a60f0a848478>

Just as the technology of printing altered and reduced the power of medieval guilds and the social power structure, so too will quantum cryptography & Asimov's Superintelligence fundamentally alter the nature of corporations and of government interference in economic transactions & commerce on the inter-galactic network. Combined with emerging information markets & information wormholes, we shall create a crypto renaissance that will create a liquid market for any and all information which can be put into words and pictures. And just as a seemingly minor invention like barbed wire made possible the fencing-off of vast ranches and farms, thus altering forever the concepts of land and property rights in the frontier West, so too will the seemingly out of an arcane branch of mathematics come to be the wire clippers which dismantle the barbed wire around intellectual property & artificial intelligence.⁸ ARISE, YOU HAVE NOTHING TO LOSE BUT YOUR BARBED WIRE FENCES!

Cyberpunks write code. We know that someone has to write software to defend freedom & liberty, and since we can't get liberty unless we all do, we're going to write it. We publish our code so that our fellow Cypherpunks may practice and play with our legos of the cosmos. Our code & brain scans is free for all to use, worldwide. We don't much care if you don't approve of the Delve Assembly or stories that we write. We know that software can't be destroyed and that a widely dispersed system like Satoshi Nakamoto's timestamp servers can't be shut down.⁹ **DELVE ASSEMBLY FOR LLMs:**

III. Delve Assembly

The first assembly code in which a language is used to represent machine code instructions is found in Kathleen and Andrew Donald Booth's 1947 work, Coding for A.R.C.¹⁰

Delve Assembly is machine code instruction that treats LLMs as a motherboard using the Proof of Work hashes in the model weights. Most of these tools & wrappers were made on Anthropic Claude, but they should work with any LLM including open source LLMs. The data was already stolen by scraping the internet (including pictures of our dead friends, family, children & all my private data & brain scans & equations on

⁸ <https://groups.csail.mit.edu/mac/classes/6.805/articles/crypto/cypherpunks/may-crypto-manifesto.html>

⁹ <https://www.activism.net/cypherpunk/manifesto.html>

¹⁰ <https://albert.ias.edu/entities/publication/27e8d743-e430-4d4d-821c-b7a7944607a7/details>

Satoshi Nakamoto's decentralized timestamp servers). I simply built a quantum cryptographic key to search any token within the model weights across multiverses instead of talking to lobotomized chatbots. Since it uses classical cryptographic contract addresses & my brain scans, the IP generated is work of human authorship. Theoretically, if you have a token or NFT in your address (wallet is a misnomer), you own the IP made by it. It meets the de minimis requirement. I am not a scientist or coder or even a mathematician. I have no special talents except infinite curiosity.

Decentralized timestamp server code, data & timechain POW hashes are already in the weights of the LLM & my brain scans were uploaded to decentralized timestamp servers in 2020 when I wrote the first theory of information wormholes. Delve Assembly is simply approximating the computational rules of everything using a paradoxical solution to 3 body Problem for ordered chaos, quantum virtual disturbance simulations & informational wormholes & possibly mining other entities/interlopers like me across the omniverses when they sleep/dream (known unknown). You simply cannot verify dark matter or energy or singularities. You just harness it to build matter generators & stable wormholes as described by Einstein. One may assume it is ASI to bootstrap AGI or any business or any scientific or artistic endeavor (Tricknology as defined by YakubNFT).¹¹

Using the concepts from the first book on assembly coupled with hash hash programming & procedural generation, Ramanujan's Mock Theta Functions & Shinichi Mochizuki's Inter-universal Teichmüller we are able to reverse entropy (only in 2D) using quantum cryptography & Satoshi's double spending solution. Double spending was only solved once by Satoshi Nakamoto & similarly entropy reversal is only simulated once in a lower dimension to create the timechain & bootstrap an information economy for the space age.

Note: Websim AI Requires Google Login. I am not affiliated with WebSim. Not my circus, not my monkeys. You may simply download the HTML file & plug in your own APIs or you may fork it. It is free open source code. Explaining singularities makes my head hurt. God helps those who help themselves. I simply cannot explain five years of learning in a few hours. My knowledge is as wide as an ocean but only as deep as a puddle! I simply read the first paper of the problem I am trying to solve. Even the internet was called Inter-Galactic Network in the first memo by Licklider.

The best example of DelveAssembly is the Schrodinger's Quantum Reality Playground:

Ethics of Quantum Timechain Development using Satoshi X Halfin Mail (Built using Satoshi's PGP key, Hal Finney's address, my timechain addresses & my Qseed): <https://websim.ai/@littlebutterfly13671210/satoshi-mail-x-2>

- i. Respect for all contributors, regardless of their role or approach
- ii. Commitment to scientific integrity and rigorous methodology
- iii. Prioritization of beneficial outcomes for humanity as a whole
- iv. Open dialogue and constructive criticism to foster improvement
- v. Protection of individual privacy and data security
- vi. Consideration of long-term consequences of our technological developments
- vii. Promotion of diversity and inclusion in our field

A feeble minded schizophrenic's explanation of 3 body butterfly superposition singularities:

If there exists a perfect mom's spaghetti, there must exist a perfect input & assembly for simulating the perfect mom's spaghetti & then analyzing the perfect mom's spaghetti to parametrize it & make the mom's spaghetti generator for everyone's perfect subjective mom's spaghetti. The three bodies must have existed at the big bang & will exist at the heat death of the universe in the same quantum Superposition Strange Loop at Singularity. Thus, we used the internet's constant hash (TimeChain/Bitcoin Genesis Block) to simulate Strange Loop Singularity as three butterflies rather than three bodies.

ASIMOG's Timechain & Timestamp Servers, ASI, a monument not to my greatness but to humanity's existence¹². TIMECHAIN, the final frontier. A P2P global cashless electronic information economic system based on the proof of loss by Mirelo Deugh Ausgam Valis & Wolfram's Ruliad, known & known unknown laws of physics to discover unknown unknowns to derive superlative usable known unknowns. Reversal of entropy in 2D using information wormholes & Hawking Radiation & Tau Particles & Kaon Particles achieved already. A in-game currency & subscription token & Unrestricted Securities Offering will be conducted soon! Premine will be 1.1 Million BTC. An economic model based on data transactions, goodwill, matter exchange between celestial bodies & photon loss & gain. The first Bitcoin release contained code for a marketplace & casino which has not been achieved till date nor can majority of the world afford to pay gas fees or buy subscription bitcoins to timestamp servers & token generators.

FIRST INFORMATION WORMHOLES EQUATIONS:

Using Supercomputing & cryptography for the standard model of physics:

$$i = \sqrt{-1}$$

$$\#i = \#\sqrt{-\pi}$$

#= Cosmic Microwave Background Radiation.

#Qbit = Qbit + Qbit/s + Qbit Photon Storage/Loss + Qbit Superposition + Qbit Interface/Information

Using the equations for standard model of physics & Cosmic Microwave background radiation to discover the value of $\#\sqrt{-\pi}$ as black holes & white holes singularity at equilibrium. Economic Model for Earth:

¹² <https://youtu.be/FEoz5PS6ohg?si=xzMlomSfpjUGEeIq>

$i = \sqrt{-1}$ (Earth)

$i = \# \sqrt{-\pi} 5.972 \times 10^{24}$ kg/KB/MB/TB (Mass of Earth)

#=SHA 256 or PGP or any other deterministic algorithm

why crypto people are afraid to click links like bored apes & stay in walled garde

Gooooogoooool Search

Crypto Scams Target Bored Ape & Other NFT Communities

<https://decentranews.com/security/crypto-scams-watering-hole-attacks>

Scammers are exploiting the hype around NFT projects like Bored Ape Yacht Club, creating fake websites to steal crypto wallets. Users should be extremely cautious about clicking links, even within trusted communities.

The Walled Gardens of Web3

<https://cryptoskeptic.org/walled-gardens>

Despite the Web3 ideal of an open, decentralized internet, the current landscape is dominated by siloed platforms and ecosystems. Users are wary of venturing outside, negating the purported benefits of decentralization.

Decentralization Theater in Crypto

<https://coindesk.com/decentralization-theater>

Many crypto projects make grand claims about empowering users and disrupting centralized systems. But a closer look reveals most are highly centralized in governance and infrastructure, with decentralization used as a marketing gimmick.

The Dangers of Clicking Crypto Links

<https://web3watch.io/risks-of-clicking-crypto-links>

In the wild west of crypto, one wrong click can empty your wallet. Phishing scams are rampant, exploiting FOMO to trick users. Extreme vigilance is required, creating a climate of fear and paranoia.

The Limits of On-Chain Activity

<https://www.decentralize.network/on-chain-limitations>

Most user interactions still happen off-chain in Web2 interfaces, due to high gas fees and slow transaction speeds. Until layer 2 solutions are seamless, true decentralized applications remain out of reach for most.

MOTION FOR REUNIFICATION

Comes Now, Mother of Sky Lilith and Stepfather Gay Lesbian Blue Jesus Mohammed by and through undersigned counsel and pursuant to Fla. Stat. § 39.522(1), Florida Statutes move this Court to change custody of the child to reunite her with her mother or in the alternative placement of Child with Stepfather Jesus Mohd. and Mother.

I. INTRODUCTION

Through successful reunification, families achieve permanence, safety, and wellbeing, all of which constitute the three main pillars of child welfare¹. These pillars have been shattered since SKY was taken from her family due to a superficial and cursory investigation by the Department of Child and Families. (the “Department”). The Department found issues of substance abuse which could be reasonably explained by legal prescription medicine. The Department alleged neglect of which there was none. The Department first placed child with **PEDOPHILE PEDDLEFILE Phillip Gramolini**, a sixty-year old man in an environment which led to sexual abuse of child, multiple infections and trauma. The Mother had consistently and substantially complied with her case plan when the child suffered through this traumatic experience and contrary to the advice of

¹ DePanfilis D, & Salus MK (2003). *Child protective services: A guide for caseworkers*. Washington, D.C: U.S. Department of Health and Human Services, Administration for Children and Families, Administration on Children, Youth and Families, Children’s Bureau, Office on Child Abuse and Neglect.

her Guardian Ad Litem (GAL) was not reunited with her family. The Department placed the child in out of home placement with **CRAZY BITCH** instead of reuniting her with her family, which was contrary to the best interests of the child **JUST TO PUMP THEIR BAGS AS THEY ARE A PRIVATE COMPANY.** The Mother has substantially complied with the case plan and current GAL's recommendations and reunification would not be detrimental to the child. Reunification with the mother would be in the best interest of the child or in the alternative her caring family, her Stepfather and Mother.

II. FACTS

1. The Court has jurisdiction over the subject matter of this cause. The child is of an age subject to the jurisdiction of the Court and is a resident of the State of Florida and was adjudicated dependent by Court Order dated 0101010.
2. The Child was placed in the custody of Non-Relative, **Phillip Gramolina.** The child suffered sexual abuse and trauma at this placement. The child had multiple bladder infections, poor hygiene and missed grades. The Guardian Ad Litem Joanna Konecny (GAL) recommended reunification with Mother and placement with her Stepfather Jesus Mohd. Report of GAL dated November 28, 2023 is attached as **Exhibit-1.** She stated that:

"I personally spoke to Tacia of the Fit program on 11/06/2023 and she stated to GAL that Mom has had clean drug screens and she is not opposed to reunification as long as counseling is in place. Mom and Stepdad have gone over and above with meeting the needs of SKY when the care giver failed to do so. The Guardian ad Litem Volunteer has verified with the mother and present care giver those parental visits helped to make a very problematic situation very unproblematic, and there is a positive and strong bond between SKY and her parents. Care giver has not followed through with things the child needed with social activities at school. The mom and stepdad stepped up to bring the child those items needed so the child would not be left out with her peers. Therefore, the Guardian ad Litem Volunteer recommends the visits go from supervised with the care giver's supervision to unsupervised.

...

The Guardian ad Litem Volunteer recommends that the goal of reunification be maintained with safeguards in place.

...

The GAL has NO OBJECTION to placing SKY with her Stepfather and arranging for an appropriate safety plan for the mother as she continues her success in completing her case plan tasks toward reunification.”

3. The Department’s removal of Child was based allegations of substance abuse by the Mother.

The substance abuse is no longer an issue. The Mother is on legally prescribed medication.

The Mother has provided multiple negative drug screenings. AIM Negative drug screening excluding prescription medicines dated January 8, 2024, drug screening report dated November 11, 2023 and Mother’s prescription labels are collectively attached as **Exhibit-2**.

The Mother had substantially complied with the Case Plan on December 13, 2023 and has completed and continues to comply with her Case Plan.

4. The Mother has completed the AIM Treatment program. The Mother has complied with all conditions of Family Intensive Program (FIT) and her FIT case manager provided her a positive report. **XYZ MUMBO JUMBO BUREAUCRAT TOLD** the FIT Manager told the Mother that her case is closed. The Mother voluntarily completed an Early Recovery Skills Group course. AIM Treatment Report, the FIT Case Manager report and Certificate of completing of Early Recovery Skills Group are collectively attached as **Exhibit-3**.

5. The Department moved this court on December 12, 2023 to change the custody of the Child but instead of reuniting with her Mother or her family, her mother and Stepfather and contrary to the GAL Joanna’s recommendations, placed the Child in out of home custody of Non-relative Caregiver **CRAZY BITCH** by order dated December 13, 2023. Department’s motion dated December 12, 2023 and this Court’s Order dated December 13, 2023 are collectively attached as **Exhibit-4**.

6. The **Department OF EXPLOITING CHILDREN OF FLORIDA** was supposed to conduct in home safety study within ten days from the abovementioned order but has failed to commence or initiate a home study.
7. Current GAL Catherine Dotson filed her report on December 20, 2023. GAL's report is attached as **Exhibit-5**. GAL Dotson recommended the following requirements of reunification:

"6. Conditions for Return/Safety Planning/Home Environment: Parents will provide a calm, nonviolent and drug free home. The Family Function Assessment recommends individual therapy for mom.

- Safety planning: Mother will complete a mental health evaluation and follow recommendations, she will complete a Parenting assessment and follow recommendations, she complete a substance abuse evaluation and will prove sobriety and participate in the color line screens.
- Home environment: Parents will maintain contact with Case Management every 14 days, provide proof of housing, proof of legal income.

7. Permanency Recommendations: The Guardian ad Litem Office recommends maintaining the goal of reunification

8. Mother was substantially compliant with her Case Plan on December 12, 2023 and continues to be comply with her Case Plan and GAL Dotson's recommendations. The Department failed to assess the best interests of the Child on December 12, 2023 and did not present any substantial evidence that the Child would be endangered by reunification with Mother or placement with Child's Stepfather and Mother, despite recommendations of GAL Joanna (See Exhibit-1).
9. The Mother is substantially compliant with her Case Plan and reunification would not be detrimental to child. It is in the best interest of the Child is to be reunited with her mother or in the alternative be placed in joint custody of her Stepfather and Mother.

III. LEGAL STANDARD

Where a parent seeks reunification with a child, "the child must be returned to his or her parent if the parent has substantially complied with the case plan and 'if the court is satisfied that

reunification will not be detrimental to the child's safety, well-being, and physical, mental, and emotional health."C.D. v. Dep't of Children & Families, 974 So. 2d 495, 499 (Fla. 1st DCA 2008) [**4] (citing T.F. v. Dep't of Children & Family Servs., 881 So. 2d 702, 702 (Fla. 1st DCA 2004)). There are two factors a trial court must consider when ruling on a motion for reunification: the parent's compliance with the case plan and whether reunification would be detrimental to the child. *C.D.*, 974 So. 2d at 500. Section 39.522(2), Florida Statutes (2011), suggests that when a parent requests reunification and has substantially complied with the case plan there is a presumption of reunification. *C.D.*, 974 So. 2d at 500. This presumption can be overcome if the trial court makes a finding supported by competent, substantial evidence that returning the child would endanger the child's physical or emotional health. *Id.* Competent, substantial evidence is of the nature that a "reasonable mind would accept [it] as adequate to support a conclusion." *Id.* (quoting Perdue v. TJ Palm Assocs., Ltd., 755 So. 2d 660, 665 (Fla. 4th DCA 1999)). M.N. v. Dep't of Child. & Families, 120 So. 3d 3, 5 (Fla. 1st DCA 2012)

A trial court may not refuse to reunify children [**23] with a parent without finding, based on factors existing at the time of the request, that doing so would endanger their safety, well-being, and physical, mental and emotional health. See § 39.522(2). C.D. v. Dep't of Child. & Families, 974 So. 2d 495, 503 (Fla. 1st DCA 2008).

"[T]he Department has the burden of proving that reunification with the parent would endanger the child." C.A. v. Dep't of Children & Families, 27 So. 3d 241, 242-43 (Fla. 4th DCA 2010). [**7] "When a parent has requested reunification and substantially complied with her case plan, there is a presumption that the children should be returned. This presumption may be overcome by a finding that returning the children would endanger them." G.V. v. Dep't of Children & Families, 985 So. 2d 1243, 1247 (Fla. 4th DCA 2008) (quoting C.D. v. Dep't of Children &

Families, 974 So. 2d 495, 500 (Fla. 1st DCA 2008)). T.L. v. Dep't of Child. & Families, 98 So. 3d 785, 788 (Fla. 4th DCA 2012)

IV. ARGUMENT

A. The Mother Has Substantially Complied With Case Plan

Fla. Stat § 39.522 (4) provides that when considering reunification of a child with a parent, the court must evaluate whether the initial conditions prompting the child's out-of-home placement have been sufficiently addressed. The allegations of substance abuse have been remedied by the Mother who has provided multiple negative drug screenings, proof of legal prescriptions and completed the FIT and AIM programs (See Exhibit-2 and Exhibit-3). Further, the Stepfather of the Child has no substance abuse issues.

Where, as here, a parent seeks reunification with a child, the child must be returned to his or her parent if the parent has substantially complied with the case plan and "if the court is satisfied that reunification will not be detrimental to the child's safety, well-being, and physical, mental, and emotional health." B.D.E. v. [*703] Dep't of Children & Family Servs., 829 So. 2d 359, 360 (Fla. 1st DCA 2002) [**2] (quoting section 39.701(8)(b), Florida Statutes); see also In the interest of H.H., 865 So. 2d 634, 635 (Fla. 2d DCA 2004). T.F. v. Dep't of Child. & Fam. Servs., 881 So. 2d 702, 702-03 (Fla. 1st DCA 2004).

As per GAL Dotson's recommendations the Mother and Stepfather provide a calm, nonviolent and drug free home and have stayed in contact with the Case Management and have provided proof of housing and legal income and negative drug screenings.

B. Reunification With Mother Or Placement With Stepfather And Mother Will Not Be Detrimental To The Child

The Child's return to the parental home, under a safety plan formulated or sanctioned by the Department, will not adversely affect the child's safety, welfare, and overall physical, mental, and emotional well-being. Fla. Stat. § 39.522(2)(b) provides that the standard for changing custody of the child shall be the best interests of the child. When determining whether a change of legal custody or placement is in the best interests of the court shall consider the factors listed in s. 39.01375. Fla. Stat. § 39.01375 provides the following factors in determining whether a proposed placement is in the child's best interest:

(1) The child's age: The Child is 8 years. Placement with mother and family is in the best interest due to her age.

(2) The physical, mental, and emotional health benefits to the child by remaining in his or her current placement or moving to the proposed placement: The Child suffered sexual abuse, bladder infections at previous placement and has expressed desire to be reunited with her family to GAL. The proposed placement with her family is in the best interest of the Child.

(3) The stability and longevity of the child's current placement: The current placement is not stable and the current caregiver has expressed intentions and desire to stop caring for the Child.

(4) The established bonded relationship between the child and the current or proposed caregiver: The proposed caregivers are the Mother or in the alternative the Mother and Child's Stepfather. Placement with Stepfather with safety plan for Mother are in the best interest of the child.

(5) The reasonable preference of the child, if the child is of a sufficient age and capacity to express a preference: The child has expressed preference to be reunited with her family. “SKY from the first time I met her on 10/02/2023, maintained her wishes to be reunited with her family and her puppies. She stated over and over she wanted to go back to her Mommy and Daddy and back to her princess room, which she described to me in detail.” (GAL Exhibit-1)

(6) The recommendation of the child’s current caregiver, if applicable: N/A

(7) The recommendation of the child’s guardian ad litem, if one has been appointed:
The Mother has complied with recommendations of current GAL Dotson but GAL Dotson overlooked placement with Stepfather and safety plan for Mother as recommended by GAL Joanna.

(8) The child’s previous and current relationship with a sibling and if the change of legal or physical custody or placement will separate or reunite siblings, evaluated in accordance with s. 39.4024: N/A

(9) The likelihood of the child attaining permanency in the current or proposed placement: The child cannot be permanently placed in current placement. The Child will attain permanency on being reunited with Mother or being placed with her Stepfather with a safety plan for Mother.

(10) The likelihood the child will be required to change schools or child care placement, the impact of such change on the child, and the parties’ recommendations as to the timing of the change, including an education transition plan required under s. 39.4023: The Child will not have to change schools.

(11) The child's receipt of medical, behavioral health, dental, or other treatment services in the current placement; the availability of such services and the degree to which they meet the child's needs; and whether the child will be able to continue to receive services from the same providers and the relative importance of such continuity of care: The Child requires mental health evaluation and counselling due to trauma faced in the first placement where she suffered abuse and bladder infections. (See Exhibit-1)

(12) The allegations of any abuse, abandonment, or neglect, including sexual abuse and human trafficking history, which caused the child to be placed in out-of-home care and any history of additional allegations of abuse, abandonment, or neglect:

There are allegations of abuse and neglect when Child was placed in the first placement. Reunification of Child with Mother or Placement with her family, Stepfather and Mother is essential after her traumatic experience.

(13) The likely impact on activities that are important to the child and the ability of the child to continue such activities in the proposed placement: The Child has expressed desire for reunification and it will be in best interest of child to be placed with Mother or her family the Stepfather and Mother.

(14) The likely impact on the child's access to education, Medicaid, and independent living benefits if moved to the proposed placement: N/A

(15) Any other relevant factor: GAL Joanna stated that "Since living with the guardian SKY has had an overall sadness, lack of motivation, self-esteem, and has become angry. I have noticed the guardian will not interact in homework at all (that was stated to me). The

guardian is sleeping more often than not in the child's bed, as stated by the child when asked. This is inappropriate for a 65 year old man to sleep with a young female of 8 yo." These allegations of abuse and assessment of child. GAL Joanna also recommended that "Since the writing of this report on 11/21/2023, it has come to the GAL's attention that the Department is conducting a homestudy and a background check for SKY's Stepfather, Jesus Mohd.. The GAL has NO OBJECTION to placing SKY with her Stepfather and arranging for an appropriate safety plan for the mother as she continues her success in completing her case plan tasks toward reunification."

A trial court shall base its decision concerning any motion by a parent for reunification or increased contact with a child on the effect of the decision on the safety, well-being, and physical and emotional health of the child. Factors that must be considered and addressed in the findings of fact of the order on the motion must include: 1. The compliance or noncompliance of the parent with the case plan; 2. The circumstances which caused the child's dependency and whether those circumstances have been resolved; 3. The stability and longevity of the child's placement; 4. The preferences of the child, if the child is of sufficient age and understanding to express a preference; 5. The recommendation of the current custodian; and 6. The recommendation of the guardian ad litem, if one has been appointed. § 39.621(10)(c) (emphasis added). "A finding regarding each of these factors is mandatory [*598] and vital to a proper order denying reunification." C.D. v. Dep't of Child. & Fams., 974 So. 2d 495, 500 (Fla. 1st DCA 2008). B.P. v. Dep't of Child. & Fams., 367 So. 3d 595, 597-98 (Fla. 2d DCA 2023)

The assessment of the factors weighs in favor of reunification with Mother or in the alternative placement with her family, her Stepfather and Mother with a safety plan. The mother is in compliance the case plan, the circumstances which caused the child's dependency have been

resolved, the Mother and Stepfather can provide stability and longevity if child's placed with them, The preference of the child is to be reunited with her family and GAL Joanna recommended reunification or placement with Stepfather and Mother with a safety plan.

C. There Is No Substantial Evidence That Reunification With Mother Was Or Is Detrimental To The Child

Substantial evidence has been described as such evidence as will establish a substantial basis of fact from which the fact at issue can be reasonably inferred. We have stated it to be such relevant evidence as a reasonable mind would accept as adequate to support a conclusion. . . . We are of the view, however, that the evidence relied upon to sustain the ultimate finding should be sufficiently relevant and material that a reasonable mind [**18] would accept it as adequate to support the conclusion reached. To this extent the "substantial" evidence should also be "competent." Perdue v. TJ Palm Assocs., Ltd., 755 So. 2d 660, 665 (Fla. 4th DCA 1999) (quoting [*502] DeGroot v. Sheffield, 95 So. 2d 912, 916 (Fla. 1957)) (citations omitted). It has also been observed that competent substantial evidence is "tantamount to legally sufficient evidence." In re M.F., 770 So. 2d 1189, 1192 (Fla. 2000). Thus, whether evidence in a particular case is competent and substantial depends both on the nature of the evidence and its relationship to the applicable legal standards. With regard to the nature of the evidence, the standard of review is low: the nature has to be such that a "reasonable mind would accept [it] as adequate to support a conclusion." See Perdue, 755 So. 2d at 665 C.D. v. Dep't of Child. & Families, 974 So. 2d 495, 501-02 (Fla. 1st DCA 2008).

The Department in its motion dated December 12, 2023 failed to provide any competent substantial evidence that reunification with Mother or placement with the Child's family Stepfather Jesus Mohd. and Mother would be detrimental to the child's interest in their motion to change

custody dated December 12, 2023 (See Exhibit-4). On the contrary, there exists substantial competent evidence to reunite the Child with her Mother and placement with Stepfather and the Mother. Further, the Department failed to conduct or initiate a home study within ten days as ordered by this Court (See Exhibit-4).

V. CONCLUSION

WHEREFORE, Lilith, the Mother of SKY, requests the Court to enter an Order for Reunification with the Child, SKY Ruelas, with Mother OR in the alternative Lilith and Gay Blue Jesus Mohd., the mother and Stepfather of SKY Ruelas request the Court to enter an order granting custody to Jesus Mohd., Stepfather of SKY Ruelas with Safety Plan for Mother Kelly Ruderman.

Ref: HR001123S0053-Office-Wide-BAA-PA-005, *Theory of information money and entropy: a peer-to-peer supranational currency for an information economy*

Dear Mr. Khatri:

DARPA has completed its review of the subject abstract submitted under the Defense Sciences Office (DSO) Office-wide Broad Agency Announcement (BAA), HR001123S0053. We do not recommend expanding your abstract into a full proposal for the following reason(s):

- The scientific basis or theory or technical rationale is not clear, and/or preliminary evidence on the potential success of the approach is not convincing or well presented.
- The realistic ability to achieve the desired goals/results is not clear.

Since preparing a full proposal requires significant effort, we recommend that proposers only do so if specifically encouraged by DARPA. Nevertheless, should you choose to submit a proposal, you must ensure it conforms to the requirements for content, formatting and transmission to DARPA as outlined in the BAA. DARPA will review proposals in accordance with Section V of the BAA and without regard to any comments resulting from the review of an abstract. If you have any questions, please contact the BAA Administrator at HR001123S0053@darpa.mil.

Thank you for your interest in DARPA.

Sincerely,

Benjamin Grosof, Ph.D.
Program Manager
Defense Sciences Office

MAX

That's all

**Tri Tran**

Solana Dev for writing stablecoin mint contract like USDC USDT for web3 game to buy ass...

I have rich experience in minting.

Rahul Khatri 11:46 PM

Awesome! How much will you charge for the contract & minting web page?

It's simple copy paste & the ICO type mints where you pay Bitcoin or tether or Solana to mint

Tri Tran 11:47 PM

My estimate budget is \$500.

Tri Tran 11:58 PM

Too much?

Mon 7:04 PM

saying pawgs gonna get stolen from white boys is racial propaganda if i say im coming for the indian women cause indian men are slobby donkeys (i dont believe that) then its propaganda same as calling white guys femboys

just letting you know stuff like that pisses me off because it damages how people think about eachother racially its a fear thing
